

INDIAN RIVER COFFEE®

Since 1996 Indian River Coffee has been brewing and serving fresh in-store roasted gourmet coffee beans from around the world along Florida's Space Coast.

Purchasing only the highest grade, 100% Arabica coffee beans for roasting, Indian River Coffee roasts their coffee beans all day, every day. With coffee beans losing their freshness, 7-10 days after roasting, you can be confident that the coffee beans you purchase or the beverages you enjoy at Indian River Coffee have been fresh roasted, usually within two to three days. The exact time that it takes coffee beans to de-gas and reach their "peak of perfection" after roasting.

The next time you're in the neighborhood, stop in and enjoy the warm, friendly and great smelling atmosphere of an Indian River Coffee Coffeehouse or visit us on the web at www.indianrivercoffee.com. (Sorry, you can't smell it online....*but you almost can!*)
